

# Countries and Regions

*ITA websites primarily with information  
on particular countries or regions.*

This page provides access to a variety of ITA websites, covering the [Big Emerging Markets-BEMs](#) and many of the leading markets of the world. For a concise executive overview of a specific country of interest go to *The Commercial Service's* [Country Commercial Guides](#). For information on our trade counseling and services provided in regions and countries of the world or in the United States call 1-800-USA-TRADE and/or visit:

- [Trade Information Center's Regional Pages](#)
- [Export Assistance Centers in the United States](#)
- [Websites and offices around the globe via the U.S. Commercial Service](#)

For Information on leading markets, visit International Trade Administration Web sites listed below by geographic region. The BEMS label marks a Big Emerging Market!

Go to the [Market Access and Compliance Page](#), to learn more about the organization whose country experts provide invaluable market analysis to U.S. business.

---

Country Commercial Guides (CCG) present a comprehensive look at a particular country's commercial environment including economic, political, and market analysis. Commercial specialists at U.S. embassies prepare the guides annually through a cooperative effort with several U.S. government agencies. The guides consolidate in one document many reports routinely prepared for the U.S. business community.

To see if there is a CCG for your country of interest and to read the Executive Overview section, go to the Commercial Service's [Country Commercial Guides](#).

---

Go to [The Commercial Service - Export Assistance Centers Page](#) to view a complete brochure of export assistance services and locations. These services and locations are targeted for easy access for small and medium U.S. businesses.

---
